

# Smart Grid Dictionary

The Smart Grid Dictionary is your best source to explain terms, jargon, and acronyms used in the Smart Grid, machine to machine (M2M) communications and the Internet of Things (IoT). No other reference guide delivers:

- Over 2200 terms covering electric, gas, and water utilities; Smart Grid, M2M communications, and IoT; cybersecurity and data privacy; distributed energy resources, energy storage, and microgrids; home and building management and energy efficiency; standards and policies; and much more
- Concise and accurate definitions reviewed by an Advisory Board of industry leaders
- Business-oriented and vendor-agnostic definitions for non-technical and technical readers
- Comprehensive descriptions of global regulatory agencies, standards bodies, and industry associations focused on Smart Grid, M2M, and IoT
- Convenient and reliable resource for everyone who needs to understand the Smart Grid, smart cities, M2M and the Internet of Things

**"One of the greatest assets that the Smart Grid transformation could have at this critical time is the Smart Grid Dictionary®. Having clear and comprehensive definitions of the essential terminology will bring much needed clarity and precision to this often confused and abused, but profoundly important, national initiative."**

Kurt Yeager

Executive Director, The Galvin Electricity Initiative

**"I looked over the Smart Grid Dictionary® and I thought it was simply brilliant! I looked up 25 things I thought should be in there and they were all there with very succinct and clear definitions."**

Rachelle Chong

Former Federal Communications Commissioner and California Public Utilities Commissioner

**"The Smart Grid Dictionary® is one of the most comprehensive information resources that exists on that broad topic we call the Smart Grid. It's an excellent Dictionary!"**

Michael E. Ebert

Principal Research Associate, George Mason University

Author Christine Hertzog, Founder and Managing Director of the Smart Grid Library®, is a consultant, industry blogger, and professional explainer.
